

"An interfaith justice coalition for the
common good"

Check out our awesome work...

Michigan Power to Thrive

Bringing together both public health and community organizing to better address fair access to healthcare in our state. Focusing on mass incarceration, mass deportation and early childhood education policy with a racial & health equity lens.

Access Task Force

Organizing to make Lansing a more accessible and inclusive community for people with physical, intellectual, and psychological challenges.

Children's Health Equity & Access (CHEA) Task Force

The purpose of CHEA is to improve *local* access for quality subspecialty health care for chronically ill children in the Lansing area. CHEA organizes with Sparrow Hospital and the MSU Colleges of Human Medicine and Osteopathic Medicine to hire local physicians and to co-locate a children's sub-specialty clinic in Lansing.

Education Task Force

For the last two years, the Education Task Force has been hard at work building a statewide network focused on early childhood education. Our first step is ending pre-school expulsion. We are hosting viewings of "The Raising of America" with elected officials, and advocating for proper education funding and family support for quality child care.

Green & Healthy Homes (GHHI)

Green and Health Homes Initiative Lansing improves health, economic and educational outcomes for families. GHHI uses a whole-house approach to eliminate lead hazards and asthma triggers, and aims to improve energy use and home safety.

Civil Rights for Immigrants (CRI) Task Force

Action works with organizations across the nation to reform America's immigration laws and ensure civil rights for all people, native born and immigrant. From informational conferences to organized bus trips for rallies in Washington D.C., CRI works to ensure the all immigrant families in Lansing have a community voice heard by national ears.

ACTION develops leaders who are affected by or are passionate about social issues in our community, offering them the skills & support needed to organize for systemic change. Visit our website - www.actionofgreaterlansing.org - to get involved.
